Environmental Policy

As a manufacturer of media packaging and IML tubes, we are aware of our impact on the environment and are prepared to take the necessary measures to minimize the negative effects on the environment in accordance with the principles of sustainable development.

Therefore, we are committed to:

- comply with legal requirements,*
- supporting customers in their sustainability efforts,*
- manufacturing products with economic use of raw material and electricity*
- using raw materials and supplies in accordance with all applicable regulations,*
- minimize and reuse production waste,*
- raising employees' environmental awareness.*

Achieving goals requires commitment in:

- minimizing unnecessary breaks and stops during manufacturing,*
- production at the highest quality level,*
- production control to quickly identify defects and eliminate their causes,*
- adapting the products offered to changing environmental requirements,*
- segregation of waste in accordance with the local requirements.*

On behalf of the Viva Board of Directors, I hereby declare that we will provide the resources necessary to achieve the environmental objectives contained in this Policy.

*Managing Director
Yves Sterckx*
